

CARPENTRY TRAINING FOR YOUR APPRENTICE

- LINK offers one day a week apprentice trade school release and block release is available. We have a rolling intake, no waiting list required your apprentice can start immediately.
- LINK combines first and second year modules. This means two years of trade school to complete training at our facility, not three years. Apprentices with completed pre-apprenticeships would require 12 months training. All training is Nationally Accredited.
- Onsite training available with most modules.
- If you need your apprentice on a trade school day, we can release them with a telephone call.
- Smaller classes giving more one-on-one training and flexibility to your business.
- We also have a pool of students who have completed Pre-apprenticeships in General Construction and are looking for a Carpentry apprenticeship.
- Our trainers are qualified carpenters and ex sub-contractors, we understand and will work with your business.
- Our Technical Training Facility is new and fully equipped capable of industry-current training. Located in central Dandenong, accessible to public transport. Make an appointment to visit our training facility.

To register for training of your apprentice call 1300 135 008 for an onsite sign-up
